## CLEMENS BUSCH RIESLING MOSEL MARIENBURG GG 2023

The combination of crisp pear, white peach and lime character makes this an immediately appealing Mosel GG. Not tremendously complex, but this has a very satisfying interplay of fruit and limey acidity that pulls you along with it. Long, very clean finish. From biodynamically grown grapes with Respekt certification. Drink or hold.

---

## CLEMENS BUSCH RIESLING MOSEL MARIENBURG ROTHENPFAD GG 2023

An explosion of wild berries and herbs with a touch of forest floor character makes this an extremely expressive dry riesling. I love the energy and intense crushed rock minerality that make this really stand out in the crowd. Such a long and fascinating wild herb finish. From biodynamically grown grapes with Respekt certification. Drink or hold.

## CLEMENS BUSCH RIESLING MOSEL MARIENBURG FAHRLAY GG 2023

Welcome to the white flower kingdom. Tremendous floral and Amalfi lemon beauty on the concentrated and very focused palate. Only medium-bodied, but with a dangerous energy and great expression, this stunning Mosel GG is just beginning to show what it can do. Very long, wet-stone finish. From biodynamically grown grapes with Respekt certification. Drinkable now, but best from 2025.

---

## CLEMENS BUSCH RIESLING MOSEL MARIENBURG FALKENLAY GG 2023

Very pure and very peachy. How can you resist this beautifully dry Mosel wine that sails so gracefully over your palate? Properly dry and very stony on the medium-bodied palate and in the finish. Still youthful, but this has so much upfront appeal and excellent harmony. From organically grown grapes with Fair'n Green certification. Drink or hold.

CLEMENS BUSCH RIESLING MOSEL  
MARIENBURG FAHRLAY TERRASSEN  
GG 2023

Still very shy, but this has a terrific combination of concentration and finesse. The combination of restrained creaminess and profound stony minerality is very exciting on the medium-bodied palate. And then comes the geological exploration of the incredibly long finish. From biodynamically grown grapes with Respekt certification. Drinkable now, but best from 2026.
